ABOUT US

YOUR'S YUGA
SAP INSTITUTE

Founded in 2023, Yours Yuga SAP Institute was born from a clear and powerful mission: to bridge the gap between SAP knowledge and real-world job opportunities. In a short span of time, we've established ourselves as a trusted destination for SAP training, career transformation, and student success. With a placement rate of 100%, our results speak for themselves. We pride ourselves on cultivating not just skill, but also confidence and industry readiness among our learners. Our training programs are thoughtfully designed to align with current industry needs, taught by experienced professionals passionate about mentoring the next generation of SAP talent.

Whether you're a fresher seeking your first job or a professional aiming to upskill, Yours Yuga SAP Institute is your launchpad to a brighter, successful future.

Our Core Strengths:

Established in 2023, Yours Yuga SAP Institute has quickly become one of the most trusted names in SAP training. With a 100% job placement success rate, our institute is a launchpad for ambitious individuals seeking meaningful careers in the SAP domain.

What Makes Our Training Stand Out?

-  Real-Time Project Exposure
-  Mentor-Driven Approach
-  Skill-First, Job-Ready Training
-  Customized Learning Paths
-  Interactive Labs & Case-Based Learning
-  Communication & Soft Skill Focus
-  Data-Driven Progress Tracking

 **Our Promise:** We don't just teach SAP—we shape careers. Our commitment is to deliver the best training experience, focusing not only on knowledge, but also on confidence, clarity, and career growth

SAP PM (Plant Maintenance)

SAP PM (Plant Maintenance) is a functional module in SAP ERP that helps organizations manage the maintenance of their physical assets—like machines, equipment, and infrastructure.

What Is SAP PM?

- Technical Objects: Manage equipment and functional locations.
- Maintenance Planning: Create preventive, corrective, and predictive maintenance plans.
- Work Orders: Generate and track maintenance tasks with cost and resource details.
- Notifications: Report issues or malfunctions and initiate maintenance processes.
- Measuring Points & Documents: Monitor equipment performance and condition.
- Task Lists: Standardize recurring maintenance procedures.
- Integration: Works seamlessly with SAP MM, PP, CO, FI, and SD for materials, production, costing, and finance.

COURSE CURRICULUM

1. Introduction to SAP and PM

- What is SAP? Overview of SAP ERP
- Introduction to SAP PM module
- Integration of PM with MM, PP, FI/CO, and HR modules
- SAP GUI overview and navigation

2. Functional overview on Master Data in SAP PM

- Equipment Master Record
- Functional Locations
- Work Centers
- Maintenance Task Lists
- Bills of Material (BOM)
- Maintenance Plans
- Measuring Points and Counters
- Catalogs and Codes

3. SAP IMG Configuration settings for Master data

- Equipment Master Record
- Functional Locations
- Work Centers
- Maintenance Task Lists
- Bills of Material (BOM)
- Maintenance Plans
- Measuring Points and Counters
- Catalogs and Codes

4. Breakdown and Corrective Maintenance

- Notification Process (IW21/IW22/IW23)
- Maintenance Order Creation and Processing (IW31/IW32/IW33)
- Order Types and Control Keys
- Release, Print, and Confirm Maintenance Orders
- Material and Time Confirmation
- Order Settlement

5. Preventive Maintenance

- Strategy-Based Maintenance Plans
- Time-Based and Performance-Based Maintenance
- Single Cycle Plans
- Multiple Counter Plans
- Scheduling Maintenance Plans
- Maintenance Scheduling Parameters
- Call Objects and Deadline Monitoring

6. Refurbishment and Calibration

- Refurbishment Processing
- Equipment Refurbishment Orders
- Calibration of Measuring Equipment

7. Reporting and Analysis in SAP PM

- Standard PM Reports
- Notification Reports
- Order Reports
- Maintenance History Reports
- KPIs for Maintenance Management
- Custom Report Creation

8. Integration with Other Modules

- Integration with SAP MM (Material Requirement, Reservation, PR)
- Integration with SAP CO (Cost Centers and Settlement)

9. RICEFW and key tables in SAP Plant maintenance

- Key tables in SAP PM
- What is RICEFW
- How to write logic for Z reports

10. S/4 HANA Enterprise Asset Management

- What is S/4 HANA for SAP PM
- Public cloud – S/4 HANA EAM
- Private cloud – S/4 HANA EAM
