YOURS YUGA SAP INSTITUTE

SAP PP TRAINING

ABOUT US

Founded in 2023, Yours Yuga SAP Institute was born from a clear and powerful mission: to bridge the gap between SAP knowledge and real-world job opportunities. In a short span of time, we've established ourselves as a trusted destination for SAP training, career transformation, and student success. With a placement rate of 100%, our results speak for themselves. We pride ourselves on cultivating not just skill, but also confidence and industry readiness among our learners. Our training programs are thoughtfully designed to align with current industry needs, taught by experienced professionals passionate about mentoring the next generation of SAP talent.

Whether you're a fresher seeking your first job or a professional aiming to upskill, Yours Yuga SAP Institute is your launchpad to a brighter, successful future.

Our Core Strengths:

Established in 2023, Yours Yuga SAP Institute has quickly become one of the most trusted names in SAP training. With a 100% job placement success rate, our institute is a launchpad for ambitious individuals seeking meaningful careers in the SAP domain.

🔍 What Makes Our Training Stand Out?

🚀 Real-Time Project Exposure

🧑‍🏫 Mentor-Driven Approach

🧠 Skill-First, Job-Ready Training

🎯 Customized Learning Paths

🛠️ Interactive Labs & Case-Based Learning

🗣️ Communication & Soft Skill Focus

📈 Data-Driven Progress Tracking

💡 **Our Promise:** We don't just teach SAP—we shape careers. Our commitment is to deliver the best training experience, focusing not only on knowledge, but also on confidence, clarity, and career growth

SAP PP (Production Planning)

SAP PP (Production Planning) is a core module in the SAP ERP system that helps organizations plan, manage, and execute manufacturing processes efficiently. It's especially vital for industries like automotive, electronics, pharmaceuticals, and FMCG where production precision and resource optimization are key.

What Is SAP PP?

- SAP PP is designed to handle:
- • Material Requirement Planning (MRP): Ensures raw materials are available when needed.
- • Bill of Materials (BOM): Lists components required to produce a product.
- • Work Centers & Routings: Defines where and how production operations are performed.
- • Production Orders: Manages the actual execution of manufacturing tasks.
- • Capacity Planning: Aligns production schedules with available resources.
-
- It integrates tightly with other modules like SAP MM (Materials Management), SD (Sales & Distribution), CO (Controlling), and QM (Quality Management).

COURSE CURRICULUM

1. **SAP Introduction**
2. **Discrete industry**
3. **Repetitive industry**
4. **Process industry**
5. **Master Data**

   - Organization structure
   - Material Master
   - Bill of Material
   - Work center
   - Routing
   - Production version
   - Configuration for Master data (with real time examples)

6. **Production Order Cycle**

   - Production Order creation
   - Availability check
   - Order release
   - Goods Issue
   - Confirmation
   - Goods Receipt
   - Cost analysis
   - Technically completion

7. **Add-ons Production Order Cycle**

   - Automatic order release
   - Automatic Goods issue and Automatic Goods Receipt
   - Mile stone confirmation
   - Scrap concepts

8. Production order configuration (with real time examples)

9. MRP (Material Requirement Planning)

- Consumption based planning (CBP)
- Demand management planning
    - Make to Stock
    - Gross requirement planning 11
    - Make to Order
- Master production scheduling (MPS)
- Configuration (MRP)

10. MRP RUN

- Concept of Material Requirements Planning
- MRP Run - MD01 or MD01N (S4/Hana)
- Single Item Multi level MD02
- Single item single level MD03
- MRP processing control parameters

11. Batch Management

- Use of Batch management
- Activate Batch management

12. Repetitive process

- Master Data
- Process steps for Repetitive
- Configuration

13. Process Industry

- Master Data
- Process steps
- Configuration

14. Real time experience with S/4 Hana

- Project Types
- TR creation
- Data move One system to another system (Dev and Quality and production)
- Collective conversation COHV
- Reversal qty for GI and GR, COGI
- Cancel Production order and process order - CO13, PI-CORS

15. Explanation on WRICEF

- Z-Reports
- PP Tables
- Forms logic
- Enhancements

16. Fiori Apps lunch
